More about the center

As an award winning facility, the Metro Toronto Convention Centre (MTCC) has hosted over 18,000 events and entertained over 55 million guests. Known as a pioneer of sustainable convention centres, the MTCC was the

first facility of its kind in Canada to offer clean, renewable power, and host large-scale Zero Waste events. With 600,000 sq ft of exhibit space, including carpeted meeting rooms, two multi-purpose ballrooms, and a beautiful 1,232-seat theatre, it is no wonder over 600 events are hosted every year. Aside from being praised as a Tier One convention facility, the MTCC has an enviable reputation for service excellence. The MTCC is located in the heart of downtown Toronto, within walking distance of over 11,000 first-class hotel rooms, an impressive underground shopping complex with over 1,200 shops, dynamic restaurants, and world-class city sites. Whether the event you are planning is of a grand or intimate nature, the MTCC pairs unrivalled service and quality with a warm, yet striking setting that is sure to make a lasting impression on your guests.
