## More about the center

At an impressive 32,500m2, the NZICC will be the largest and most versatile conference, exhibition and entertainment space in New Zealand. Set within the heart of a vibrant Auckland city, the NZICC has immediate access to world class hotels, public transport, galleries, dining precincts and other key civic and tourist amenities. It is a vertically stacked building spread over four levels, and this innovative and flexible centre will feature:

- the ability to accommodate conferences of approx 3,000 delegates
- 1,000m2 of elevated views for banquet style settings
- mezzanine levels with panoramic views that can easily be converted from meeting and exhibition, to banquet and performance functions, all of which will be available for local use
- a dedicated, flexible plenary theatre configurable in multiple modes (banquets and theatre) to cater for up to 2,850 people
- 2,700m2 of meeting and breakout spaces, easily configured in modules with larger rooms divisible into smaller spaces
- a large exhibition hub which can accommodate one off events of 4,000 attendees, with 8,100m2 of configurable exhibition space across three column-free halls, a nine metre high stud and direct truck access off Hobson Street for easy set up and pack down.

The NZICC will be opening mid 2019. Talk to our team today to see how we can to help you create a legacy.
