## More about the center

The SwissTech Convention Center is one of the largest conference centers in the Lake Geneva region hosting events of international fame. This majestic building is distinguished by its modernity, its innovative technologies and a warm and experienced team. We are here to welcome your events and support you throughout the event. The SwissTech Convention Center distinguishes itself from other major congress centers by its number of conference rooms and its adaptable capacity. The architecture of the building allows three auditoriums to become one; the number of seats in each auditorium can also be changed in just a few minutes. This modularity is based on two mechanisms: a system of sliding walls, and the Gala Venue technology.

# Key information
