More about the center

The Convention Centre Dublin (The CCD) was developed to provide a world-class conference venue in the heart of Ireland’s capital city, Dublin. The [CCD](#) is an iconic building, designed by the late award-winning Irish architect [Kevin Roche](#). The entire venue is finished to the highest specifications and incorporates spectacular technology throughout, including Wi-Fi for up to 22,000 devices. Its stunning glass-fronted atrium gives visitors panoramic views of the River Liffey, Dublin city centre and the Wicklow mountains.

The venue was designed around the delegate experience with 22 multi-functional rooms suitable for meetings, conferences and exhibitions of all shapes and sizes, from small corporate meetings to international congresses. The CCD’s online event platform and virtual event studio also provides clients with the option to host their event in either [virtual](#) or [hybrid](#) format.

Recognised as the first carbon-neutral convention centre in the world, The CCD’s contemporary design meets the highest standards of environmental sustainability. The CCD is also committed to long-term sustainability in accordance with the International Standards Organisation (ISO) 14001. The CCD’s vision is to become Ireland’s most sustainable venue and a leading expert in event delivery in Europe.

In 2021, The CCD achieved a Gold status, becoming only the third venue in the world to achieve the highest-level accreditation by the World Obesity Federation’s Healthy Venues Award programme.

If you’re looking for a unique and inspirational setting for your next event, [contact us](#) today.
