More about the center

The overall facility covers an area of 55 ha and is divided into two separate spaces: an exhibition area (indoor & outdoor) and a convention center.

This Exhibition Center dedicated to trade and general public fairs comprises a 40,000 sqm exhibition hall that is completely modular and a 14,000 sqm main street that leads to an outdoor exhibition area of 25,000 sqm. Moreover, it is equipped with two additional mezzanines which bring an original touch that truly complements the building.

The Convention Center is designed around two stages and will be able to accommodate corporate events of up to 10,000 delegates. This entirely modular venue can simultaneously host a plenary session, as well as events in a variety of formats: cocktail reception, gala dinner and exhibition.

This new venue, inaugurated in September 2020, is committed to a sustainable development strategy, taking into account growing environmental concerns associated with building design and construction.
