

## Press release – TVS joins AIPC Community

---

Brussels (November 8<sup>th</sup>, 2022) – TVS, the global award-winning architecture and interior design firm is joining the AIPC Community as a business partner and will play an active role in the educational, research and networking programme of AIPC.

TVS – designers of the four largest convention centers in North America, four of the largest in China, the largest in India and the largest in Central America – will bring great value to the AIPC community in different ways. The objectives of the partnership are to stimulate the exchange of knowledge between TVS and the AIPC members, leverage the expertise of TVS when developing educational and research programmes, and to create partnerships with AIPC members in pursuing the collective goal of remarkable venue design.

This will also allow TVS to be in direct contact with the senior leadership of more than 170 convention centers worldwide and to have insight into the continuously changing design and construction requirements.

“TVS is honored to join AIPC’s incredible network of global business leaders, and to participate in the ongoing knowledge exchange of best-in-class international business operations with its members,” said Erik Waldman, CVE, TVS Vice President of Venue Services. “We’re thrilled for the opportunity to provide value to our fellow AIPC members by sharing our experiences in convention center design, and are looking forward to engaging this community as a business partner.”

“From an AIPC point of view, it is very important to give our members privileged access to companies such as TVS. By involving them actively in our activities, we allow for an exchange of knowledge and ideas which is invaluable to our global community”, said Greg O’Dell, President of Venue Management at OVG360 and President of AIPC.

## About AIPC

AIPC - the International Association of Convention Centres - is the industry association for professional convention and exhibition centre managers world wide. AIPC is committed to encouraging and recognizing excellence in convention centre management, while at the same time providing the tools to achieve such high standards through its research, educational and networking programs

## About TVS:

TVS is the award-winning architecture and interior design firm at the helm of some of the world's premier convention center facilities, having delivered the four largest in North America, four of the largest in China, the largest in India and the largest in Central America. These convention projects are often the most complex that a community will undertake, with more than 240,000,000 people interacting with these designs every year. Renowned for flexible, high-performance solutions that rise to the challenges of an ever-evolving meetings and events industry, TVS makes remarkable design easy.
